Government Transformation Enablers

Our Vision

Our vision is to empower the National Vision 2030 Bureaus and government transformation programs from the mandate of the supreme leadership to the completion of work and the oversight of results through an integrated system to automate and strengthen government performance

Sustainable Development Goals (SDGs)

In 2015, all United Nations Member States adopted the Sustainable Development Goals (SDGs), also known as the Global Goals, as a global call for action to end poverty, protect the planet and ensure peace and prosperity for all people by 2030.

Maximizing the government productivity

Promoting Competitiveness, Agility, Transparency, and Governance

What is GPM® Suite?

End-to-End Government Productivity Transformation

Government Productivity can be accomplished through implementing and automating lean processes and transparent reporting mechanism across all processes.

GPM® presents its end-to-end platform that contains:

Strategy & Initiatives
System

EPM System

Committees Management
System

Mandates Management
System

eGov Command Centers

Strategy System

Strategy system is Tracking and monitoring and collaborating the performance of the agreed upon strategic objectives, initiatives, programs and projects of the organization.

We start from the strategy definition till mapping all related initiatives and projects KPIs.

National Transformation Programs are based on strategic vision and national agenda of 2030. **Strategy & VRO 360 System** enables decision makers and strategy leaders to craft and successfully implement strategies, objectives, KPIs, assigned responsibilities, aligned initiatives and seamlessly report the overall strategy performance across all scorecard aspects.

Strategy system handles multiple layers based on customer needs and scope "nationwide, programs level, initiatives, strategic objectives starting from level 1 till level 5 objectives and even till level (n) of execution layers.

Key Features

- Strategy Creation (Vision, Mission & Strategic Objectives)
- Balanced Scorecard
- Initiatives Management
- Linked KPIs & OPIs Libraries
- KPIs Trend Analysis
- Risks, Issues, & Impact Assessment
- Alignment with UN-SDGs
- Insights for the Minister Office
- Strategy Governance Model
- Alignment with Vision (2030)
- Strategy Performance Dashboard
- Performance Benchmarking
- Powerful Dashboard & Analytics

EPM System

End-to-end Enterprise Portfolio, Program & Project Management platform

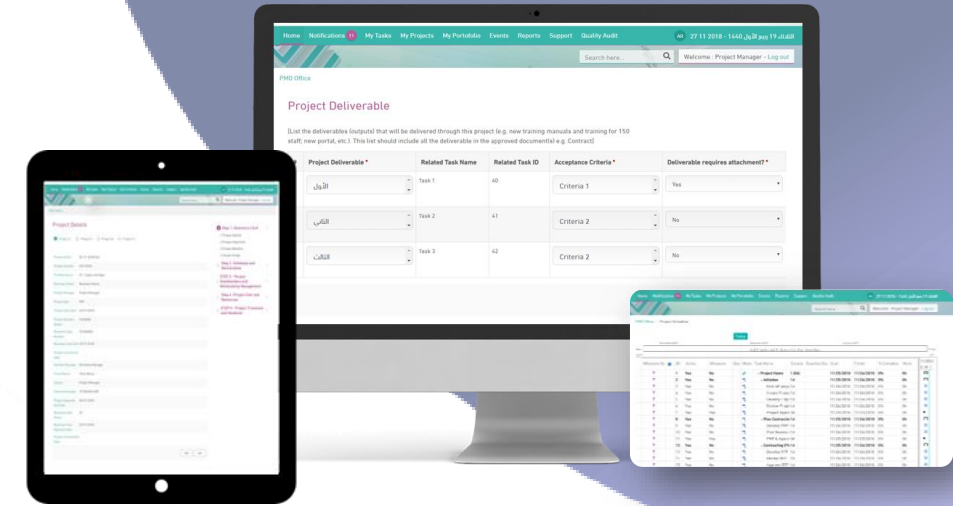

Built on **Microsoft™ Platform**, Enterprise Project Management (**EPM**) is an end-to-end Enterprise Portfolio, Program & Project Management platform ensuring the successful governance of PMO full cycle implementation and automation.

Many organizations trusted our EPM to realize their national vision (2030) and to ensure full project management governance with less costs, time, and allocated resources.

Key Features

- Fully automated EPMO processes, forms, reports, workflows, and audit cycle (if needed)
- Smooth Integration with ERP, GRP, Strategy System, Committees System, and Mandates System
- Documents Upload
- Notification Center with Actions
- Central Repository for EPM Assets
- Fully-customized UI, UX

- Powerful Dashboard & Analytics
- Project Documents SLA
- EPMO – System of Records
- Backbone for VROs
- Insights for the Minister Office
- Organizational health dashboard on the portfolio level
- EPMO Governance Model
- Compliance with PM Standards
- Alignment with Vision (2030)
- Special Workflow for Confidential Projects

Mandates 360

End-to-end Mandates Management System for all internal and external mandates

Mandates Management System (MND) is an end-to-end government mandates management platform that enables governmental agencies to effectively register, assign, delegate, manage, track, and monitor the internal and external mandates across different stakeholders and entities.

Hundreds of government mandates are issued on daily basis. Agile governmental agencies make sure that all of their internal as well as external mandates are assigned, implemented, tracked and closed in order to meet the national vision 2030.

Key Features

- Receive Mandate Correspondences
- Creation of New Mandate
- Linking with an Existing Mandate
- Mandate's Feasibility
- Request Extension of Mandate
- Link Mandates to Projects
- Correspondences Management
- Roles Assignment & Delegation
- VRO Representation Management
- Mandates Feedback Management
- Follow-up, Notification & Escalation

- Mandate Closure
- Smooth Integration with Strategy System, Committees System, and EPM System
- Priorities Management
- Tasks Management
- Reports & Dashboards
- Documents Upload
- Notification Center with Actions
- Central Repository for Mandates Assets
- Fully-customized UI, UX
- Powerful Dashboard & Analytics
- Arabic & English Platform
- Insights for the Minister Office

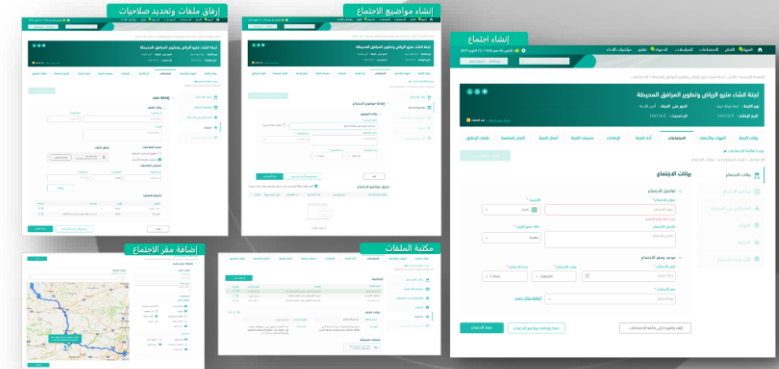

Committees 360

Agile performance and sustainable outcomes through digitizing committees full-cycle

Agile governments are conducting hundreds of meetings related to various committees in order to accelerate the government critical missions and national agendas. **Committees 360** is one of the main productivity-boosting modules that enables different stakeholders starting from creating a committee, covering all dynamics of meetings management, notification, delegation, representation, mandates, meeting outcomes, notification, escalation, voting, till closing the committee.

Committees 360 offers a 360-view of the committees' lifecycle starting from creation, assigning members, meetings management, correspondences & updates, mandates, projects, announcements, voting, till the committees' resolutions and performance outcomes.

Key Features

- Committee Establishment
- Committee Card
- Committee Performance Dashboard
- Meetings Management
- Follow-up, Notification & Escalation
- Voting Management
- Recommendations & Assignments
- Delegation
- Correspondences Management
- Committee Timeline
- Closure Procedure
- Easy to navigate
- Different roles & responsibilities
- Standard Reports
- Data-Driven Insights
- Data Visualization
- Committees' Performance Tracking
- Fully-customized UI, UX
- Powerful Dashboard & Analytics
- Arabic & English Platform
- Insights for the Minister Office

Leveraging the "Art of Storytelling" to renovate government services and platforms using UX/UI and Data Visualization

Data Analytics & Visualization tools are highly utilized only when you have the right partner who cover the business acumen. GPM embraces and reproduces industry-based reports and BI solutions using Gartner's magic quadrant tools.

Executive Dashboards

Leveraging business acumen to generate smart ONE-CLICK data visualization & analytical reports

Business-Oriented
